To Whom it May Concern,

I am writing this as a letter of recommendation for Madison Irvine. Madison worked in my classroom as a teacher candidate in the fall of 2021 for 6 weeks. I am a Grade 6/7 teacher and have 27 years experience. I found Madison to be competent and eager to learn. She was professional at all times and worked hard to ensure she learned as much as possible in the time she had in the classroom. I had a challenging class at the time and she was always open to advice and constructive criticism. She made connections with the students and they enjoyed the experience of learning with her. I would happily have her back in my classroom at any time and wish her well in her career as a teacher. I have no hesitation recommending Madison to any job at the elementary level and wish her the best of luck in her teaching career.

Sincerely,
Sandy Blacquiere
